Designing Things

1. If your design needs to be on something specific, like a T-shirt or Vinyl Decal, you can select it as well as other kinds of templates for the base of your project. If you’re not making anything specific, you are able to select a blank canvas to start on
    1. If making a sticker, it is recommended to simply select a blank canvas
2. Select whatever it is you want to use for the design from the left sidebar (Text, Shapes, Images, etc.)
3. Use the features above to create designs however you want, like combining shapes to make a figure or a new shape

Here is an image of the "tool bar" and what each feature does:
