

# Common 3D Features

This page consists of the culmination of the Brackeys video: How to make 3D Games in Godot. The video is not a tutorial, but a guide to common engine features like lighting, physics, materials, animations, and more. For convenience, video link and its times stamps are below:

## [How to make 3D Games in Godot \(video\)](#)

- [3:35](#) 3D Space
- [6:13](#) Greyboxing
- [9:31](#) Terrain
- [10:01](#) Playing the Game
- [11:11](#) Character Controller
- [14:15](#) 3D Physics
- [16:10](#) Graphics
- [17:44](#) 3D Assets in 1 min
- [18:45](#) Assets in Godot
- [22:38](#) StandardMaterial3D
- [26:53](#) Scene Workflows
- [30:53](#) Collision
- [32:57](#) Replace Greybox
- [35:43](#) Animated Characters
- [38:33](#) Speed up Workflow
- [39:24](#) Environment
- [42:00](#) Lighting
- [45:38](#) Tonemap
- [47:18](#) Camera
- [48:45](#) Render Quality
