

Fire Action Control Simulator

Equipment: Quest 3

Set up:

1. Turn on the headset and create a new boundary. The playspace should be standing and allow for full range of arm motion.
2. Open the app library and search or scroll for Fire Action Control Simulator.
3. Once found, select the Fire Action Control Simulator.

Controls/Navigation:

- Grip to select choices or pick up items
- Trigger to spray extinguisher

Gameplay:

1. Experience opens to menu screen with two options (tutorial or simulation)
2. Once guest selects simulation they will see another menu screen with three options (small fire, large fire, or random)
3. Small fire
 1. Use grip button to pull fire alarm while hovering over the alarm (to the user's left)
 2. Use grip button to call 911 while hovering over the phone (to the user's right)
 3. Use grip button to pick up fire extinguisher while hovering over the extinguisher
 4. Use grip button to pull pin from fire extinguisher
 5. Use trigger button to spray from fire extinguisher (user must use the trigger button in whichever hand they are holding the extinguisher)
 6. Once fire is extinguished have user turn around and use grip button to complete building evacuation
4. Large fire
 1. Use grip button to pull fire alarm while hovering over the alarm (to the users left)
 2. Use grip button to call 911 while hovering over the phone (to the users right)
 3. After calling 911 have user turn around and use grip button to complete buiding evacuation while hovering over the selection box

5. After extinguishing the fire or evacuating the building the user will see a breakdown of their completed or missed steps during the experience
6. Return to main menu
