

Haptic Vest VR Demo

Equipment: Quest 2 “Haptic Ready” (HQ2-04), Haptic Vest

Set up:

1. Turn on the headset and create a new boundary. The playspace should be standing and allow for full range of arm motion.
2. Open the Haptic Vest VR Demo. From the menu bar, open the App Library. Open the drop down menu, select the folder “Unknown Sources, ” and open the Haptic Vest VR Demo. Remove the headset.
3. Turn on and connect the haptic vest. Press the triangular button on the back of the vest and then wait for the light to turn blue- this signifies the vest has been connected.
4. Put on the haptic vest. Once zipped, the vest should be adjusted until snug using buttons on the shoulders and the four straps on the side.
5. Put the headset on and begin the experience.

Controls/Navigation:

- X and A to teleport
- Interact by “touching” or “pushing” with controllers
- Use your controller to “push” the green buttons in the demo to mess around with the vest

Gameplay:

1. Landing Scene gives navigation, instructions, and warning.
2. Enter the door by the giant hornet. “Touch” or “push” green buttons to interact with the haptic experience.
