

InspectAR

Equipment: iPad

Set up:

1. Find a big, flat, open space
2. Grab and open the iPad
3. Open the InspectAR app

Controls/Navigation: Finger to select

Gameplay:

1. Will open on the welcome screen. Tap anywhere to start.
2. A list of models will pop up. Select the one the player wants to view, and then select "Select" in the bottom right corner.
3. The model will appear on the screen. At the bottom of the screen, the player can "Rotate" the model (bottom middle) or view different parts of the model with "View Parts" (bottom right)
4. Exit to the main menu ("Exit" in the bottom left) to select a different model
